

I just wanted to send a quick note to let you know how much I appreciate the support I've received from Technical ProSource on Anadarko's COE (Common Operating Environment) project. Your people have been an asset and true business partner every step of the way. You've been here since day one and through all the up's and down's of the project. You brought knowledge of OS rollouts and have been flexible, creative, and supportive as we've gone through our process. Your people have been knowledgeable and helpful. I just wanted you to know we couldn't have done it without your help.

I would do it all over again!

Thanks,
COE Project Manager
